LEED CREDIT INFORMATION

What is LEED?

LEED, or Leadership in Energy & Environmental Design, is a green building certification program that recognizes best-in-class building strategies and practices. To receive LEED certification, building projects satisfy prerequisites and earn points to achieve different levels of certification. Prerequisites and credits differ for each rating system, and teams choose the best fit for their project.

Which Palmer Fixture Products earn credits?

The **BluStorm® High Speed Hand Dryer** *(pg. 12)* earns LEED Credits for

EAc1: Optimize Energy Performance and EAp2: Minimum Energy Performance

The **EcoStorm® High Speed Hand Dryer** *(pg. 14)* earns LEED Credits for **EAc1: Optimize Energy Performance** and **EAp2: Minimum Energy Performance**

ADA COMPLIANT PRODUCTS

The Americans with Disabilities Act (ADA) defines the accessible requirements for the design and construction of washroom space in the United States. Detailed below are examples of the ADA installation requirements for hand dryers.

As for the visually impaired, Rule 4.4.1 states:

Objects projecting from walls (for example, telephones) with their leading edges between 27 and 80 inches (685 mm and 2020 mm) above the finished floor shall protrude no more than 4 inches (100 mm) into walks, halls, corridors, passageways, or aisles. Objects mounted with their leading edges at or below 27 inches (685 mm) above the finished floor may protrude any amount.

3-41/64" (92.5mm)

26-3/16" (665mm)
According to ADA Regulation 4.2.5, concerning forward reach:

If the clear floor space only allows forward approach to an object, the maximum high forward reach allowed shall be 48 inches (1220 mm). The minimum for low forward reach is 15 inches (380 mm).

ADA Accessibility Guidelines	
(as measured from finished floor)	
Forward Reach Ranges - Unobstructed

Vapor-Air Mist Neutralizer

The Vapor-Air Mist Neutralizer is an exciting new alternative to all other deodorizing systems. Inside the Vapor Mist Dispenser, a ceramic disc vibrates as electricity passes through. This propels the ultra fine Vapor-Air Fragrance particles into the room. Dispensers can be placed in restrooms, hotels, offices and schools, improving indoor air quality. The air you breathe is better, making your surrounding environment much more pleasant.
